**FOG Program**

Mr. Ahern gave an update on the FOG Program. As of this date 98% of the facilities are in compliance. Only one facility is not. As far as registration for renewals, 80% have renewed for the previous fiscal year and 10 establishments have not renewed. Their fees will be added to the current year.

Mr. Ahern distributed handouts illustrating the progression of compliance since May of 2014. (These are on file). He said that he is going to see if the consultant will hold his rates for testing this year.

**Other Business**

Mr. Thurkettle explained to the members why the ductile iron pipe he wanted used at the Rolling Hills Country Club for the laterals, ended up being a better solution than the PVC pipe that had been suggested at the last meeting. There being no further business, the meeting adjourned at 5:35 PM.

Respectively submitted,
