POLICE COMMISSION SPECIAL MEETING
22 DECEMBER 2015

CTO

Chairman Chris Weldon called the meeting to order at 6:14 p.m. In attendance were Commissioner David Waters, Commissioner Donald Sauvigne, Chief Robert Crosby, Captain John Lynch, Captain Thomas Conlan, Lieutenant Stephen Brennan, Tom Peters (Wilton Villager) and Matt Mason.

MINUTES

Commissioner Sauvigne made a motion to approve the minutes of the November 2, 2015 regular meeting and the December 14, 2015 special meeting. The motion was seconded by Commissioner Waters. Motion carried 3-0.

DISCUSSION OF MONTHLY REPORTS

Monthly reports were reviewed and discussed. The Commissioners were extremely pleased with the number of MV Stops in the prior month, which was significantly higher than that for the same period in prior years. Chief Crosby noted that a SEU grant assisted in making it possible to put more officers on the road for this activity.

The Activity Report for November was reviewed. The Commission had no comments on the report.

The MAC Report for November was reviewed. The Commission noted that a traffic speed study was performed at Dudley Road as a result of a citizen’s complaint and the study results indicated excessive vehicle speed. Chief Crosby stated that the Department would implement selective enforcement and the speed trailer to reduce speeding in this area. The Commission noted the surprisingly high traffic count in another study at Old Belden Hill. Chief Crosby noted that Officer Anna Tornello had received an award from AAA for her work to promote safety. Chief Crosby reported that Officer Tornello and Officer Smith assisted at a Norwalk sobriety checkpoint. Officer Smith participated in a
Shop with a Cop event with children in need. The recent Stuff-a-Cruiser event for Toys for Tots was a significant success.

The SRO Report for November was reviewed. The Commission expressed satisfaction with the report. Chief Crosby reported that the SROs were maintaining significant time and attention to these duties. The timing and mechanics of further K9 patrols at the schools are being discussed with the school system.

The Overtime Report for November was reviewed. The Commission continued to express concern with the overtime hours, including those during this reporting period. Chief Crosby noted that 85 hours of overtime will be covered by the SEU grant, but the number of overtime hours is still greater than last year in the same reporting period. He reported that two officers will be out of the FTO process so more officers will be available on the road in the near future, that a lateral hire will be on the road soon, and that the process of hiring for dispatch is underway, all of which should positively affect the number of overtime hours.

The K9 Report for November was reviewed. The Commission expressed satisfaction with the amount of community policing activity, and noted that two out of six narcotics searches resulted in positive results.

The Accreditation Report for November was reviewed. Lieutenant Brennan reported that he had met with State Accreditation Manager Tanner to review the requirements for Tier I accreditation. The Department must address approximately 127 standards and 306 proofs. The number of Department personnel who will be working on the accreditation is being increased to include not only Lieutenant Brennan but also the Training Officer and the Administrative Sergeant. This will result in less time demand on any one officer and better time management when these individuals are needed for other Department duties. They are building a database that will cross reference standards where the same proofs are necessary, thereby reducing duplication and streamlining the process. The Department is being educated on what is necessary for a proper proof, which has the dual benefit of ensuring accuracy of reports and providing a usable proof. In equivalent size and case volume departments, typically an accreditation manager spends approximately 75% of their time on the accreditation program and some departments hire part time personnel to maintain it; Lieutenant Brennan reported that he has been spending approximately 20 hours per week on average, and that he expects that it will continue to require about the same 20 hours per week, spread among the personnel assigned to the program, to implement and then maintain it.
